DRAWING---ARCHITECTURAL and MECHANICAL.—As this is the season for young mechanics and others to apply themselves to the attainment of the greatest and to the advantage in their various pursuits, viz:—a thorough knowledge of Geometrical Drawing.

We would call their attention to "Mantlie's Text Book of Self-Instruction," being a complete manual of Mechanical Drawing, including Geometrical Drawing and Perspective, illustrated with 56 steel plates, and explained in a familiar manner, rendering the attainment of the art easy and agreeable.

From the New York Scientific American.

"It is the best work on Drawing that we have ever seen; no young Mechanic such as a Machinist, Engineer, Cabinet Maker, Millwright or Carpenter, should be without it."

From the Baltimore Western Continental.

"He, who having thoroughly mastered this book, cannot make any of the ordinary drawings of this kind, may well despair of ever being able to accomplish such a result.

From the National Intelligencer.

"Indeed, one can scarcely err who carefully goes through it could not be said, so far as principles and methods are concerned, any longer to want a master."

From the American Railroad Journal.

"It is commended to those best qualified to judge of its merits, as being the most thorough and complete work of the kind ever published in this country."

"It has received universal commendation from the press, and we believe that it merits all that has been said in its praise. Price $2,00.

PARTICULAR NOTICE.

We will forward a copy of the above work free of expense, to any part of the Union, on the receipt of three dollars, which may be sent per mail at our expense.

W. M. & Co. have also published an abridged edition of the above work for the use of Schools, containing all the principles that are contained in the large work, illustrated with 48 steel plates.—Price $1,25. Published and for sale by

GREAT AMERICAN REMEDY.

VEGETABLE DYSPEPSIA BITTERS, a sure, speedy and permanent cure, for Dyspepsia in its worst forms. This medicine will be found to cure all complaints arising from disorders of the stomach and bowels, billiousness, yellowness of the skin, Liver complaints, Debility, Headache, Nervousness, Low Spirits, Palpitation of the Heart, Costiveness, &c, &c. Please read the following certificate:

Read the following from an eminent physician:

The undersigned being acquainted with some of the ingredients of Hutchings' Vegetable Dyspepsia Bitters, and having used it for some time in his practice with every desired effect, he recommends this medicine from the certainty of its effect, and gives it a preference over all preparations in medicine for that distressing complaint, Dyspepsia.

T. HARDENBERGH, M. D.,
No. 1 Beach street, N. Y.

From Luther A. Wyman, Esq., late President of New York Musical Society; now of Brooklyn:

The undersigned was afflicted with Dyspepsia of the worst form for one year and a half, during a greater portion of which time he made use of no remedies, but suffered the disease to take care of itself, until he was recommended to try Hutchings' Dyspepsia Bitters; he very soon derived benefit from the use of a few bottles of this medicine and now considers himself entirely well.

The undersigned has every confidence in the efficiency of Hutchings' Bitters for the cure of this troublesome and dangerous complaint, and he has no hesitation in recommending it as a most valuable medicine.

L. B. WYMAN,
N. York, Sept. 8, 1849. 38 Bushing Slip.

The following certificate is from Mr. Brady, the celebrated Daguerreotypist:

Having been afflicted very severely with Dyspepsia, together with extreme weakness he was advised to take Hutchings' Dyspepsia Bitters, and have every reason to believe it has perfectly cured me. I have felt no symptoms of a return of the disease and believe from the effect it had on me that it will cure the worst cases of Dyspepsia.

M. B. BRADY,
No. 205 Broadway, N. Y.

The Proprietor of this medicine has received many other certificates of cures, equally remarkable, of the various diseases for which this preparation is applicable; but the above are deemed necessary to satisfy any unprejudiced mind of its value and superiority above all other preparations.

Principal office, 122 Fulton-st., N. Y., up stairs.

DR. CORBET'S HIGHLY CONCENTRATED SYRUP OF SARSAPARILLA.

It is a undeniable fact that no medicine ever brought before the public, has proved so beneficial in cases of diseased Blood, Liver Obstruction, Scrofulous Taint, Consumptive Habit, and all cutaneous affections, as that of Dr Corbet's!—The distinguished Prof. Hayes says:—"It ought to have a preference, as the formula exhibits the union of some of the best of our native medicinal roots and plants with substances of the highest repute as remedial agents, and does not include any *Metallic Compound*."

But read what Druggists say, whose well known characters give full security to its virtues.

"The Compound Concentrated Syrup of Sarsaparilla, made by the United Society at Canterbury, is prepared with great care, and the increasing demand for it is positive proof of its good effects. It is now prescribed by most of the Physicians in Boston and elsewhere, which is the best evidence that they give it a preference over any other preparation of Sarsaparilla offered to the public.

"Since its introduction, its reputation has been constantly increasing, and its popularity extending in every direction, being recommended by most distinguished physicians.

ANOTHER PHYSICIAN'S TESTIMONY.

Mr. Fowle—Dear Sir: I could send you a dozen certificates, *strong* and *decisive*, of the really *astonishing* effects of *your valuable Balsam of Wild Cherry*, within the past twelve months, under my own supervision and direction. Indeed, I know of few persons who have used it, comparatively, but commend it in the strongest terms. A case of *dishonest*, the *severest I ever saw*, to which I was called a month ago, evinced the *superiority of the Balsam*. This disease lasted six weeks, and the dysentery and suffering were *dreadful*; he sat up every night.—The gentleman told me to give him something to last him home, (21 miles,) so that he might see his wife and child, and die in peace! I gave him one bottle of the Balsam, and four ounces of syrup squills, directing him to take ten-spoonful doses of best Bordeaux olive oil, when the difficulty of breathing was greatest. Next day I forced his despondent will, and *made him* take six bottles of *Wistar's Balsam of Wild Cherry* home with him *as a present*, he having alleged that he had used so much expensive medicine to no profit. Last week Mr. A. called and *expressed* his *gratitude* to me in the *warmest manner, said the medicine had saved his life*, paid his *whole* bill, and took six bottles more, and left my office for home, *rejoicing*.

Very respectfully yours,

DR. CORBETT'S SYRUP OF SARSAPARILLA

EFFECTS WONDERS!

Read this remarkable case of JOHN DAVIS, *Sexton of Rev. Edward T. Taylor's Church, Boston.*

I, the undersigned, Sexton of the Church of that good man, Father Taylor, state the following facts, which I think should be told a world. I was born in Portugal, and am now forty years of age. My parents were healthy, and I was not afflicted by any disease until the year 1845. I was then residing in Boston. At that time my skin became subject to a humor, which at last was so bad as to alarm myself and friends. Severe sores and abscesses developed themselves: large scars are now deeply imprinted on my forehead and other parts of my body, and by their excoriation indicated even into the bone. About twelve months since my afflictions seemed increasing.—Deep seated sores of the foulest character came out on my arms, my head, and even attacked my eyes. I became weak, emaciated, and unable to perform the duties of life for my daily bread.—Failing of receiving any benefit from physicians who prescribed for me, I resorted to the use of various Sarsaparilla compounds, as advertised, but with no benefit. The able and distinguished surgeon and physician, James Ayer, M. D., Hanover street, who had watched my case, at last advised my using Corbett's Shaker Sarsaparilla.

I am happy now to state that my general health is fast improving, the scrofulous developments on my hands, arms and face quietly passing away, and not until this moment have I had any hope of a rescue from the grave. To Corbett's Sarsaparilla do I alone attribute this amendment, as not until I had adopted its use, (and this in minute quantities,) have I for four years found any relief from suffering. JOHN DAVIS.

STATES, and all parts of Great Britain, France and other places on the Continent.

One of the members of the house has recently returned from England where he has made a permanent arrangement with the eminent forwarding establishment of Messrs. CHAPLIN & HORNE, who receive all goods for distribution in Europe, promptly deliver them at their many agencies. Our connexion with this extensive house gives us facilities not heretofore enjoyed by any other parties.

CHAPLIN & HORNE being also the exclusive Agents in England for the Messageries Nationales of France, we have peculiar advantages for forwarding parcels through to France and other parts of the Continent.

Houses at London and Liverpool will attend to the collection of accounts, and other business of a confidential nature in any part of the Kingdom, and with the assistance of several legal firms, will give special attention to all documents requiring attestation or other action.

We have authority to draw on the PROVINCIAL BANK OF IRELAND, and all its branches, where prepared to furnish drafts for the convenience of our customers.

On the reception of goods or parcels in this country they will be forwarded without delay to their destinations—those out of the city by the earliest Expresses.

Persons at a distance desiring to make shipments to England or the Continent, either by steamers or packet-ships, can leave their goods, or order, at any of the offices of ADAMS & CO., and GREENE & CO., in the United States, who will receive and promptly forward them to us.

Our friends who may wish to visit Europe, and who desire INTRODUCTIONS in places where they make strangers, will receive every accommodation from ourselves and our agents.

All we may be disposed to favor us with the shipping of their goods from England to America, will oblige us by directing their correspondents abroad to order such goods to be given in charge of CHALIN & HORNE (who have branches in every principal town in the Kingdom) "care of Edward Hale & CO., Liverpool," or "London."

THE AGE OF IMPROVEMENT.—One of the most important discoveries of the age, in ameliorating the condition of this large class of suffering humanity, Consumptives, is Dr. Wistar's Balsam of Wild Cherry. What time establishes and consecrates, what experience adopts and confirms, what all men in all places unite in saying is good and valuable, is so, no doubt. A popularity of this sort fixes in society its roots so deep and strong, that time cannot destroy it. The success which has attended this medicine for several years past, has overcome the prejudices of all respectable and sensible men, and the article has taken a stand among the first class discoveries and blessings of the age; and when resorted to in season, eradicates the diseases for which it is recommended.

Dr. H. Marcantir, of Tarboro, North Carolina, writes us under date of February 14, 1847, that he has used Dr. Wistar's Balsam of Wild Cherry, in his practice the last eighteen months, and considers it the best preparation of the kind he ever saw, and knows of none so deserving the public patronage.

EFFECTED BY DR. CORBETT'S HIGHLY CONCENTRATED SYRUP OF SARSAPARILLA.

[From Sophronia W. Badger, wife of Stephen C. Badger, Esq., for twenty years Clerk of Court of Common Pleas, Merrimack County, N. H.]

"For a number of years past I have been afflicted with Salt Rheum, Dyspepsia, General Debility, and Scrofulous Affections. About fifteen months since, I commenced taking Corbett's Shakers' Sarsaparilla Syrup, and soon realized great benefit therefrom. It is the first medicine I ever found that permanently helped me, and I find that my health and strength are very much improved. I believe this an invaluable remedy for Scrofulous disorders, and most cordially recommend it to all who are afflicted as I have been. My general health is now good, and I attribute my recovery solely to the Shaker Syrup.

The Daily News.

NEWPORT.

BY CRANSTON & NORMAN,

127 THAMES STREET.

MONDAY MORNING, APRIL 22, 1850.

☞ We trust that the freemen will be prepared to vote for the establishment of a High School, should the Committee report in favor of this proposition at the June Town Meeting. When this matter was under consideration in April, we were sorry to hear any gentlemen advance opinions that the rising generation could be too highly educated, or that there was any danger of enlightening the mind to too great an extent. These sentiments have been advanced in ages which have long since passed away, but we had supposed that the idea was an exploded one, and that the question was too well settled, at this time, by the intelligence and wisdom of all, to admit of a single doubt, as to whether a sound education could be injurious to any one, or whether it could make a man a bad citizen. Common sense, sound reason and all experience teaches us, in the most emphatic manner, that Education has never yet injured a man; and, as a general thing, where you find bad men in the world, it is because they have not been sufficiently well or properly educated.—There has been a radical deficiency somewhere, but it has not been in consequence of polishing and ennobling the mind, or elevating and purifying the heart. We yearly pay our thousands and millions for the support of Penitentaries, Poor Houses, Houses of Refuge, Jails, Public Workshops, and all these kind of things; this money is to support persons in confinement who have disgraced themselves, violated the laws of the land, or who are unable to maintain themselves, in consequence of a deficiency of education adequate to the demands of life. Better, far better will it be, a few years hence, if we contribute liberally to educate the young now, and we shall then have far less to pay for the maintenance of these public institutions of which we have spoken.

Nothing extravagant is proposed or desired by the friends of this project; they do not expect to establish a School which shall give boys a Collegiate Education.—It is only intended to prepare them thoroughly to enter life as they ought; to qualify them for the discharge of all the duties which may be imposed upon them, and [illegible] zens. We advocate this School system from the purest and most disinterested motives; we have no children to be educated at these Schools, and we never expect to be personally benefitted by them. Yet we most earnestly desire to see the young around us nurtured and trained in the best manner, because we know that we shall then be surrounded, in coming years, by intelligent, educated and well-trained men and women, whose minds have been properly balanced and whose characters have been polished and systematised by all that Educational appliances can do. For these reasons we advocate the system, and we are willing to be taxed for the accomplishment of so desirable an object.

Men labor all their days, and heap up riches to make their children miserable; he who leaves his children fortunes, but curses them with ignorance, entails misery upon his posterity which God will hold him strictly accountable for. He permits men to accumulate wealth, but the enjoyment of this possession is trifling when compared with the degree of responsibility which He attaches to it. In America, particularly, there is no Aristocracy but that of Mind, and there is no Supremacy but that of Reason; and he who excels in these respects is the only true nobleman who can ever claim preeminence on this soil of freedom. Our only ambition, therefore, should be to excel in all that can elevate the mind and ennoble the character.

We ask the freemen to deliberate upon this matter, and they *must* come to the conclusion that the safest and happiest manner in which they can discharge the important duties which are obligatory upon them is to do all in their power to educate the rising generation. Such a course will afford them pleasure while they live, and consolation when they die. If we, in our last moments, can look back, and feel that we have performed our whole duty to those who were entrusted to our care, and that although we may not be able to bequeath them wealth, still, that we have already given them a more invaluable legacy—a thorough Education,—the reflection will relieve the mind from a fearful weight which would otherwise terribly darken the soul in its flight from the enjoyments of the present to the accountability of the future.

☞ The Post Master General has discontinued the Post Office at Jamestown, in this State, in consequence of the resignation of the Post Master there, and because it was deemed inexpedient to continue it longer. All Mail matter for that place will hereafter be distributed at the Post Office in this town.

The following is a good phrase descriptive of an energetic character: "Cromwell did not wait to strike until the iron was hot, *but made it hot by striking.*"

Kiss Cotillions.—The editor of the Windsor Journal, learns, "that the Professors of Dancing in New York, have recently introduced a new style of cotillion, called the "Kiss Cotillion," the peculiar feature of which is, that you kiss the lady as you swing corners. The editor says he has great objections to the amusement, but that he wouldn't mind waiving them so far as to "swing corners" now and then, in the new cotillion. We have no doubt, that, if introduced, the new figure would be vastly popular, and extensively practised.—*N. Y. Mirror.*

We shall probably hear next of Model Artist Cotillions, which will be "vastly popular, and extensively practiced." Does any *man*, in whose bosom the true feelings of a nob'e heart exist, desire to see his wife, his daughter, his sister or his friend engaged in the "Kiss Cotillion?" Decency and a proper respect for those we love will urge every one who respects virtue, to denounce this new mode of Dancing.

Gentleman Missing.—We are requested again to call attention to the advertisement in another column, offering a liberal reward for the recovery of Mr. Edward Moore, of Newport, R. I., and giving a full description of his person.

We are informed that a gentleman answering this description, and apparently not in full possession of his faculties, crossed the ferry from Astoria to Hell Gate, Yorkville, on Tuesday afternoon the 16th inst., at sunset, asking for the way to New York.

The friends of Mr. Moore call upon all persons who have observed, since the last eight days, such an individual in any part of Long Island or Manhattan Island, to give information to Mr. Heckscher, 44 South street, up stairs, or 515 Broadway.

Editors of papers published in any part of Kings or Queens county, Long Island, are desired to publish this notice and the advertisement above referred to, and to send their bills to Mr. Heckscher.—*N. Y. Express.*

☞ The 75th anniversary of the battle of Concord was celebrated at that place on Friday, and was attended by the Gov. and the Legislature of Massachusetts, and an immense number of people. Among the guests were five survivors of the battle.—An oration was delivered by Robert Rantoul, Jr., Esq., of Boston; after this, all partook of an excellent dinner.

CONGRESS.

Washington, Friday, April 19.

The Southern Senators met in caucus this morning to arrange matters concerning [illegible]

Senate.—After some time spent in reading and correcting the journal, Mr. Hale presented a petition praying for the repeal of all slave laws in the District of Columbia.

Mr. Hale moved its reference to a select committee, and called for the yeas and nays.

After some debate Mr. Atchinson moved that it be laid on the table for reception and reference, which was carried.

Mr. Douglass moved to take up the California bill, and to make it the special order.

Mr. Downs reported in favor of printing the index laws, and the Senate are now considering it.

House.—The House met at 12 P. M. and after the usual opening business appointed Mr. Winthrop as Speaker during the absence of Mr. Cobb.

Mr. Allen moved that the debate on the California message should terminate on Friday next, which was rejected.

The House then went into committee of the whole on the state of the Union and took up the private calendar, and are now busy discussing the claim of Messrs. Nicoll and Clinch.

St. Louis, Thursday, April 18.

By the arrival here, yesterday, of a gentleman from New-Mexico, we have received dates from Los Negas to the 6th of March.

Indian depredations in that country still continue. The Americans are living in constant dread and fear, and the savages are daily becoming more daring.

The writer says a runner, sent by a party of Buffalo hunters, arrived at Los Vegas a few days before he left. The Hunters had encountered a body of Apache Indians, and an engagement ensued between them. Two of the Hunters were killed and three or four badly wounded. The Indians carried off all their animals, and at the time of the runner's departure nearly all the ammunition of the Hunters was exhausted.

The Commander at this place was called upon to order out a company of military to protect the Hunters, and render them necessary assistance.

The Apache satisfied with their booty, retreated.

A few days since three Mexicans were killed by the Indians at Vernal Springs, on the road from Los Vegas to Santa Fe.

Great complaints are made that sufficient precaution is not observed by Colonel Monroe in granting licenses to traders—many having been in the habit of selling arms and ammunition to the hostile Indians.

It is said that nineteen persons narrowly escaped being poisoned at Lanesboro', Pa., by drinking tea made from water in which a lizard was found.

14 days later from Europe

Halifax, N. S., Telegraph Office, Friday, April 19, 9 A. M.

The America arrived at 12 o'clock last night and sailed at half past two this morning, wind north and light. She has 72 through passengers.

ENGLAND.

Since the sailing of the previous steamer parliament has done little more than vote the supplies and transact other business of a local and uninteresting character. During the Easter recess Lord John Russell passed some time at Manchester. In addition to the abolition of the hard licensing of Ireland, it is stated that government have it in contemplation to abolish the Irish courts of law, and transfer the whole machinery for governing Ireland to London. Both measures are violently opposed by the Irish press. The new Catholic primate of Ireland, Dr. Cullen, has issued his first pastoral, which emanates from Rome, and is free from all allusion to politics.

Agricultural operations, both in England and Ireland, are being carried on this year on a most extensive scale.

The protectionists still continue to hold meetings, in the apparently vain hope of reimposing a tax upon the importation of articles now free. Mr. D'Israeli, the leader of the party, is still severely indisposed.

The repeal agitation has been partially revived in Ireland, under the auspices of John O'Connell, but there is a lack of its former spirit.

Trade in the woollen districts has sensibly improved of late.

The English coast was visited by a severe hurricane on the 30th March, causing much destruction of property and frightful loss of life. Amongst other vessels lost was the John R. Skiddy, which was driven ashore on the west of Wexford, where she was a total wreck—Capt. Shipley, passengers and crew saved. The Howard, from New Orleans, was wrecked at the entrance of the Mersey. The steamer Adelaide, from Dublin to London, was lost near the mouth of the Thames, and every soul on board, numbering 200, was drowned. The coast is everywhere strewed with portions of vessels that have fallen a prey to the elements.

FRANCE.

At Paris, although there is increased excitement and greater bitterness between conflicting parties, the only marked events of the fortnight have been, first, the revolt of one of the regiments, which the government has not succeeded in quelling—and [illegible] way, against Louis Napoleon; [illegible] tration in a small through the [illegible] passed significant event in the legislative assembly, was a proposition by M. de Laroche Jaqueline, a friend of the president, to the effect, that on the first Sunday in June, the nation should be called upon to pronounce definitively on the form of government which it should choose to select—that every elector should be called upon to inscribe upon his bulletin, monarchy or republic—that if a republic should acquire the majority, it should be proclaimed in the chamber by the president of the republic, and if the monarchy obtain the majority it shall be proclaimed by the president of the assembly. This remarkable proposal was received in solemn silence by the majority, and by derisive sneers from the mountain; but at length the proposal was negatived—it having fallen to the ground in consequence of not being seconded, and the previous question was immediately voted unanimously. The members of the mountain received the announcement with a cry of "Vive la Republique!"

It is said that the president of the republic is so deeply in debt that nothing but the possession of the imperial crown can extricate him, and that he is at present engaged in negotiations with Russia, for the purpose of possessing himself of that, to him, now necessary protection. The government are perseveringly employed in introducing their measures of coercion, in which the majority of the assembly support them. The Paris correspondent of the London Standard, of a late date says that government is said to have received despatches from Germany, which lead to the belief that a collision between Austria and Prussia is almost unavoidable. The language used by both powers partaking more and more of a hostile character.

The bill relative to the press, is meeting with the most determined opposition by the provincial and metropolitan editors, which they consider more objectionable than a small stamp. The "Napoleon," the official organ of the President, attacks the whole press, and pointedly hints at the propriety of gagging all political writers. In consequence of a scrutiny, six of the Democratic members elected at the late election, have been rejected. Emile de Giradin has been rejected as a candidate for Paris at a preparatory socialist meeting. Eugene Sue's name is mentioned with some chance of success, should he consent to come forward.

Letters received in Paris from Switzerland, state that all apprehensions of the refugees causing any disturbance, has vanished.

SPAIN.

From Madrid the reports of a speedy reconciliation between the English and Spanish governments are confirmed. The state of Cuba causes the greatest solicitude to be felt on the part of the Spanish government.

ROME.

A recent bulletin of the Roman Observer says that the return of the pope to Rome has been definitively fixed for the 8th inst. The speedy return of his holiness appears to give general satisfaction.

Advices from Lisbon state that Com. Martin was concentrating his squadron at the Tagus, in anticipation of a hostile visit from the American naval forces, to enforce a settlement of long standing claims by the American government.

SARDINIA.

From Sardinia it is reported that the minions of the pope have been instigating the government to suppress the liberty of the press.

TUSCANY.

The Tuscan government have refused to accede to Lord Palmerston's demand of indemnity for losses sustained by British subjects at Leghorn last year; the difficulty has been submitted to the arbitration of the Sardinian government.

GERMANY.

The German parliament at Erfurt assembled on the 20th of March. Advices are down to the 26th, at which time little had been done beyond organizing the assembly. It is said that negotiations have been opened by the central power of Germany with the United States, and the purchase of American vessels of war, completely equipped for service.

PRUSSIA, RUSSIA AND WIRTEMBURG.

An imperious note has been addressed to the Russian government by that of Prussia on the subject of the Schleswig Holstein dispute. After enumerating all the points at issue, the note says:—"There are so many facts which the emperor cannot regard with indifference, and from which he cannot, in conscience, release the Prussian cabinet." The note concludes by distinctly intimating the determination of the emperor to employ decisive measures, if necessary, in support of the Danish side of the controversy.

A serious rupture has occurred between the governments of Prussia and Wirtemburg, in consequence of the tone assumed by the king of the latter country, in opening the chambers. The government of Prussia has addressed a note to that of Wirtemburg, couched in very strong terms, expressing the astonishment of the king's government at the speech—rejects, with the most profound indignation, the suspicious and accusation it contains, and declares it beneath its dignity to reply the reto, or to continue diplomatic relations with his accusers.—Berlin is, it is said, to be surrounded with forts. Fortified barracks have already been commenced near one of the gates.

TURKEY.

Recent advices from Constantinople state that preparations were being made to conduct Kossuth and the other Hungarian refugees to Kutahia, in Asia Minor, where they are to be confined, it is said, five years.

A telegraphic despatch of the 20th March from Trieste, states that the insurrection in Bosnia is extended its range and increasing in strength; 2000 Turkish troops were defeated by the insurgents and compelled to evacuate the fortress of Banjaluka.

SWEDEN.

Letters from Stockholm announce that by a general order, the Swedish navy is put on a footing of war. The object of the measure is not known.

GREECE.

Advices from Athens are to the 19th of March, but they furnish only confirmation of previous reports. Eleven of the captured vessels have been given up by Com. Parker. A courier arrived with despatches from London on the 18th.

Another mail has arrived from India, bringing dates from Bombay to the 2d March, and from Calcutta to the 29th February. There is evidence of growing uneasiness on the part of the people and several rather serious demonstrations had been made against British rule. As an inevitable consequence, more valuable territory has been annexed to the East India Company's possessions.

☞ The sloop Rienzi has been raised, and taken into Newport for repairs.

☞ On Friday, the Senate elected the Select Committee upon the Compromise resolutions of Mr. Clay and Mr. Bell. It consists of the following: Mr. Clay, Chairman; Messrs. Cass, Dickinson, Bright, Webster, Phelps, Cooper, King, Mason, Darius, Mangum, Bell and Berrien. It is a very strong Committee, and we entertain sanguine hopes that the result of their deliberations will settle the difficulties which have made so much commotion in Congress and throughout the country.

An Intelligent Juror.—In the trial of a cause in the Supreme Court, New York, this week, after the prosecution had finished and the defence begun, it was discovered that one of the Jurors was unacquainted with the English language.

VERILY, THIS IS THE AGE OF HUMBUG! TO CONSUMERS OF FLUIDS, PATENT OILS, CAMPHENE, &c.

HOW easy it is, and still more silly, for a person to sit down and write an advertisement praising every or any article that they may happen to have to sell, and running down that of their neighbors, which they know to be quite as good as their own, and, in many cases, better. But such is character istic of the age we live in. But the public has been so gastoned of late, with these flaming, bombastic advertisements, that they now know just what weight to attach to them. We believe that advertising, when not abused, to be a benefit to all; but, like many other things, it must be overdone with

Gas! Gas!! Gas!!!

We would say to all, use your own judgment—it is the only alternative.

I have the following articles, which is the best, cheapest and clearest, of any Oils or Fluids now used, for producing a brilliant light:

Burning Fluid,	70 cts.	per gall.
Pine Oil,	70 "	"
Camphene,	60 "	"
Phosgene,	70 "	"
Patent Fluid,	70 "	"
Williams's Pine Oil,	60 "	"
Double Pine Oil,	60 "	"

And all the other Oils. We are daily receiving fresh supplies of the above kinds of Oils and Fluids, from the largest Manufacturers in the country, and we defy all competition in prices or quality. We expect that others have as good an article as ours, but we know that none have a better or a cheaper. Never, in one instance, has there been a complaint brought against it, and not one family that has given it a trial, but what continues to use it in preference to all others.

Also, Lamps of every description, for burning the above, for which, I am Agent for the Manufacturers, and will sell at their prices. Wicklogs, Tubes, Cans, &c., &c., and every article ever called for, kept in a Lamp store; and we advise all that desire a brilliant and economical Light, to give us a call, and they will find us ever ready to fulfil our promises to the letter.

April 13.

FACTS TO BE REMEMBERED.

CONSUMERS of PATENT OIL, PINE OIL, BURNING FLUID and CAMPHENE, will find it to their interest to call on the undersigned before purchasing elsewhere, for three simple reasons—

1st. Because we always have on hand and are daily selling, large quantities of the only PATENT OIL for tube Lamps, that is sold in Newport—for the sale of which, we are the only *Agent*, and which is, beyond all doubt, the best article for *Family* use ever introduced, for a brilliant and Cheap Light. It burns free and brilliant—free from grease, smoke or smell, and will not congeal or explode, and is sold at 70 cts. per gallon.

2d. THE PINE OIL and BURNING FLUID furnished me by the largest and most extensive Manufacturers in New York and Boston, enable me to *warrant* it as being *pure* and *genuine*. Every one speaks of it in the most flattering manner, as being a cheap and clean light, and is sold at 70 cts. per gallon; and the Pine Oil, for burning in Williams's Parlor Lamps, for 60 cts. per gallon.

3d. Though last not least of all, comes RIDER'S DOUBLE REFINED CAMPHENE, which is acknowledged by all, to be the best and cheapest article for light. It has stood the test of this community for the last six years, notwithstanding the many attempts to crush it, by introducing an inferior article from New York and Boston. The superior advantage ours has over *foreign Camphene* is, that we distill it fresh twice a week, and consequently it will not smoke or crust the wick, like an article bought from abroad. Thus, we furnish the public with an article from which they can obtain any quantity of Light, (equal to City Gas,) at one-third of the expense, at the same time safe, clean, and free from smoke or smell.—All the above are FACTS, *for* which we hold ourselves responsible to the letter, or we forfeit our honor, our reputation, and our sacred HONOR.

Also, Lamps of every description for burning the above, for which we are Agent for the Manufacturers, and will sell at their prices. Wicking, Tubes, Cans, &c., &c.; and, in fact, we keep POSTED, close up, in every particular respecting the Cheap Light system. Therefore, we say to every one that desires a brilliant and economical Light, to call on the subscriber before purchasing elsewhere. PHILIP RIDER,

LIVER COMPLAINT,

JAUNDICE, DYSPEPSIA, CHRONIC OR NERVOUS DEBILITY, DISEASE OF THE KIDNEYS,

And all diseases arising from a disordered Liver or Stomach, such as Constipation, Inward Piles, Fullness or Blood to the Head, Acidity of the Stomach, Nausea, Heart-burn, Disgust for Food, Fullness or weight in the Stomach, Sour Eructations, Sinking or Fluttering at the pit of the Stomach, Swimming of the Head, Hurried and Difficult Breathing, Fluttering at the Heart, Choking or Suffocating sensations when in a lying posture, Dimness of Vision, Dots or webs before the Sight, Fever and dull pain in the Head, Deficiency of Perspiration, Yellowness of the Skin and Eyes, Pain in the Side, Back, Chest, Limbs, &c., Sudden Flushes of Heat, Burning in the Flesh, Constant Imaginings of Evil, and great depression of Spirits can be effectually cured by

DR. HOOFLAND'S CELEBRATED GERMAN BITTERS,

Prepared by

DR. C. M. JACKSON,

AT THE GERMAN MEDICINE STORE,

120 Arch Street, Philadelphia.

Their power over the above diseases is not excelled—if equalled—by any other preparation in the United States, as the cures attest, in many cases after skillful physicians had failed.

These Bitters are worthy the attention of invalids. Possessing great virtues in the rectification of diseases of the Liver and lesser glands, exercising the most searching powers in weakness and affections of the digestive organs, they are without, safe, certain and pleasant.

READ AND BE CONVINCED.

Chas. Robinson, Esq., Easton, Md., in a letter to Dr. Jackson, January 9, 1850, said—

"My wife and myself have received more benefit from your medicine than any other we have ever taken for the Dyspepsia and Liver disease."

"The Tenth Legion," published at Woodstock Va., January 10, 1850, said—

"A GREAT MEDICINE."

"We have only refrained from recommending to the public any of the various Patent Medicines of the day, unless thoroughly convinced of their value. Among those we consider worthy of notice is the *German Bitters*, invented by Dr. Hoofland, and prepared by Dr. Jackson, in Philadelphia. One instance in particular, in which the superior virtues of this medicine has been tested, has fallen under our observation. During the last summer, a son of Mr. Abraham Crabill, of this county, was very seriously afflicted with Liver Complaint, and after trying in vain various remedies, he purchased a bottle of the Bitters, and after using it, was so much relieved of his distressing malady, that he procured another bottle, and is restored entirely to health."

READ FURTHER A FEW FACTS

From "The Weldon Herald," published at Weldon, N. C., January 25, 1850, which said—

"Patent Medicines."

"It is very seldom that we make any allusion to Patent Medicines, either approving or otherwise. Unfortunately for the country, and for honest and conscientious inventors and vendors of these medicines, the land is becoming flooded with quack preparations, that are made alone for profit, and are fit not even for the dogs. In this state of things it is hard to tell which are, and which are not worth having. If a person gets an indifferent medicine the first time he purchases, he is very apt to condemn the whole of them and buy no more, and inventors must only blame those of their number, (who ignorantly combine plain medicines together for the purpose of making money,) for the ill success which attends the efforts of the deserving."

"We believe Dr. C. M. Jackson's 'Hoofland's German Bitters,' to be a most excellent medicine, and one that should be highly popular in these days of Intemperance—for they are altogether Vegetable in their composition, without one drop of Alcoholic Spirits in them. This medicine is innocent, but strengthening in its effects, and richly deserving of an unbounded popularity, which, when it becomes known, it will, no doubt, fully enjoy."

Judge M. M. Noah said, in his "Weekly Messenger," January 6, 1850,

"*Dr. Hoofland's German Bitters.*—Here is a preparation which the leading presses in the Union appear to be unanimous in recommending, and the reason is obvious. It is made after a prescription furnished by one of the most celebrated physicians of modern times—the late Dr. Christopher Wilhelm Hufeland, professor to the University of Jena, private physician to the king of Prussia, and one of the greatest medical writers Germany has ever produced. He was emphatically the enemy of *hunting*, and therefore a medicine of which he was the inventor and endorser may be confidently relied on. He specially recommended it in Liver Complaint, Dyspepsia, Debility, Vertigo, Acidity of the Stomach, Constipation, and all complaints arising from a disordered condition of the stomach, the liver and the intestines. Nine Philadelphia papers express their conviction of its excellence, and several of the editors speak of its effects from their own individual experience. Under these circumstances, we feel warranted, not only in calling the attention of our readers to the present proprietor's (Dr. C. M. Jackson's) preparation, but in recommending the article to all afflicted."

MORE EVIDENCE.

The "Philadelphia Saturday Gazette," the best family newspaper published in the United States. The editor says of

DR. HOOFLAND'S GERMAN BITTERS:

"It is seldom that we recommend what are termed Patent Medicines to the confidence and patronage of our readers; and, therefore, when we recommend Dr. Hoofland's German Bitters, we wish it to be distinctly understood that we are not speaking of the nostrums of the day, that are noised about for a brief period and then forgotten after it has done its guilty race of mischief, but of a medicine long established, universally prized, and which has met the hearty approbation of the family itself."

Evidence upon evidence has been received (like the foregoing) from all sections of the Union, the last three years, and the strongest testimony in its favor, is, that there is more of it used in the practice of the regular Physicians of Philadelphia, than all other nostrums combined, a fact that can easily be established, and fully proving that a scientific preparation will meet with their quiet approval when presented even in this form.

That this medicine will cure Liver Complaint and Dyspepsia, no one can doubt after using it as directed. It acts specifically upon the stomach and liver; it is preferable to calomel in all bilious diseases—the effect is immediate. They can be administered to *female or infant* with safety and reliable benefit, at any time.

BEWARE OF COUNTERFEITS.

This medicine has attained that high character which is necessary for all medicines to attain to induce counterfeiters to put forth a spurious article, at the risk of the lives of those who are innocently deceived.

Look well to the make of the genuine.

They have the written signature of C. M. JACKSON upon the wrapper, and the name blown in the bottle, without which they are spurious.

PEOPLE'S MUTUAL FIRE INSURANCE COMPANY,

WORCESTER, MASS.

THIS Company commenced operations in May, 1847, and has received so liberal a patronage, that it has obtained a permanent character for prudent management, not surpassed by any Company in the Commonwealth, taking so great a variety of safe risks.

The Directors feel justified in recommending this Institution to the favorable consideration of the public, pledging themselves that every effort shall be made on their part, to continue its prosperity, and furnish such a security against loss by fire, as shall remove all anxiety on the part of those insured.

They have an Agent for the State of Rhode Island, who is thoroughly acquainted with the principles of Insurance. They also employ a General Agent, whose duty it is to examine and inquire into the nature of the risks taken, and when there is any defect in the building or carelessness on the part of the Insured, to report the same to the Board of Directors.

They effect Insurance on all kinds of Buildings, except those of an extra hazardous character.—Also, upon Neat Stock, Hay and Grain, Household Furniture, Provisions, Wearing Apparel, Libraries and Merchandise generally, and also upon all kinds of Manufactured Articles and Stock in the process of Manufacture, excepting Stock in Cotton, Woolen and Paper Mills, or property alike hazardous, for any term of time not exceeding five years.

Their Rates of Premium are established upon a basis sufficiently guarded to avoid all Assessments. The Dividends have averaged 50 per cent on all Policies that have expired in this Company, and it is believed that still larger dividends will be made in future.

THE UNION MUTUAL FIRE INSURANCE CO.,

GOSHEN, N. H.

THIS Company was chartered in June, 1848, and went into operation in October following: since which, it has issued 3615 Policies, covering by Insurance more than two and a half millions of property. The whole amount of property now at risk is $2,457,000.

The aggregate Capital of the Company amounts to $250,000.

In accordance with the provisions of their Charter, the Directors have divided the property at risk into the following FOUR CLASSES—each being liable for its own losses.

THE FARMERS' CLASS, which insures for six years, is composed entirely of Farmers' property, on which they have now insured $486,000.

VILLAGE CLASS, insures safe property in Towns and Villages, such as Dwelling Houses, their contents, out buildings, &c., for six years.—The amount now at risk in this class is $605,000.

MERCANTILE CLASS, insures for three years, and is constituted of Stores, Merchandize, Public Houses, Churches, Printing Offices, &c. The amount of property now at risk in this class is $750,000.

MANUFACTURERS' CLASS. This Class is composed of most kinds of hazardous property, with the exception of steam risks—in which the amount insured is $610,000.

The Company have, thus far, been very fortunate; the whole aggregate of losses in the three first classes combined, does not amount to $2,000 since the Company went into operation. They are now, and have been for several months past, issuing at the rate of 5000 Policies per annum.—Their capital is consequently rapidly increasing, and the Directors with confidence commend the Company to the public, as a medium of Insurance founded upon the most equitable principles and promising the most favorable results.

The above report was made the first of January, since which time, a large number of Policies have been issued.

DR. S. P. TOWNSEND'S
COMPOUND EXTRACT OF
SARSAPARILLA.

ORIGINAL AND GENUINE.

SIXTY DRUGGISTS!

An advertisement appeared in several of the papers, headed "Sixty Druggists" this advertisement is signed by a number of men who keep small retail drug shops in the back streets of the city, but are no Druggists or Physicians. The advertisement was got up by a lot of unprincipled men under the direction of Thompson, Skillman & Co., who hired a man by the name of Jacob Townsend, who lived in Troy, to put up a stuff which they call sarsaparilla and palm off upon the public as the genuine and original Dr. Townsend's Sarsaparilla. Skillman & Co. have proved that it was their intention to take advantage of Dr. S. P. Townsend's extensive advertising, which has cost him over $100,000, and the popularity of the name of his medicine, to sell their stuff. The advertisement signed by these shopkeepers, and published in the papers by Thompson, Skillman & Co., would lead people to believe that our Sarsaparilla cures, &c., which is false. These men have not, to our knowledge ever purchased any Sarsaparilla of us, and know nothing of its merits. Very few of them being able to spare sufficient amount of money to purchase a dozen. The majority of them have applied to us for agency, which we refused. At least one of those men has been in the

STATE PRISON,

for forging a draft or note on the Chemical Bank; we know nothing of the character of the others—but if they tell any Sarsaparilla for the original and genuine Dr. Townsend's Sarsaparilla which is not signed by S. P. Townsend, they would commit any fraud.

Swindlers.

Druggists or others that sell Sarsaparilla for the genuine and original Dr. Townsend's Sarsaparilla, that is not signed by S. P. Townsend, commits a fraud, and swindles their customers. Men that would be guilty of such an act, would commit any other fraud—and no Druggist of common intelligence but knows that mine is the only genuine.

WHOLESALE DRUGGISTS.

Below will be found the cards of three of the first wholesale druggists in the city. These three have purchased $50,000 worth of Dr. S. P. Townsend within the last four years. We have sold it by the hundred dozen to many others—we keep it through all seasons in South America, New Orleans, Havana, &c., and these charges that our Sarsaparilla sours and ferments is as foul as their other libels.

Read the following:

NEW YORK, May 21, 1849.

This is to certify that our house has within the last five years purchased over twenty-five thousand dollars worth of Dr. S. P. Townsend's Sarsaparilla. It is an article that continues in unprecedented sale, and as far as we know, gives universal satisfaction. It does not ferment and break the bottles as has been alleged.

NORTON & BABCOCK,
No. 130 Maiden Lane and 30 Fletcher street.

NEW YORK, May 21, 1849.

This is to certify that we have purchased over ten thousand dollars worth of Dr. S. P. Townsend's Sarsaparilla within the last five years. The medicine is very popular and has become an article of commerce. We find no trouble with its souring or fermenting.

BOYD & PAUL, No. 4 Liberty street.

DR. S. P. TOWNSEND, wishes the Public to understand that he is no connection of of Jacob Townsend whatever, and never saw him but once that he is aware of, and that was on an occasion of his calling at his house to sell some pamphlets and cheap publications.

CONSUMPTION CURED!
Cleanse and Strengthen.
CONSUMPTION CAN BE CURED.

Bronchitis, Consumption, Liver Complaints, Colds, Coughs, Catarrh, Asthma, Spitting of Blood, Soreness in the Chest, Hectic Flush, Night Sweats, Difficulty or Painful Expectoration, Pain in the Side, &c., Sore throat and can be cured

In the last stages of Consumption.

The following Certificates are selected from a large number received. The first was kindly forwarded to us by Dr. Colwell, a respectable physician of extensive practice at Oswego, New York. He writes that the Sarsaparilla has performed many cures, and the better it is known, the more it is appreciated. His letter can be seen at the office, if any wish to see it.

EAST OSWEGO, DEC. 6, 1847.

DR. COLWELL:

Dear Sir—This is to certify that I have been sick a number of years with the Consumption, and that last summer I was so low that my friends thought I could not live but a very short time, and by your advice, thinking there was yet a hope left, I commenced taking Dr. S. P. Townsend's Sarsaparilla, which soon gave me relief. I grew better fast while taking the Sarsaparilla, and am now able to be about the house and do some work. I owe my recovery, thus far, to the above medicine, and believed that it saved me from the grave. If you choose, you may forward this statement to Dr. S. P. Townsend.

MRS. MARGARET ARMSTRONG.

We, the undersigned, are acquainted with Mrs. Armstrong, and know the above to be true.

SARAH JANE HENDERSON,—ELIZABETH HADLEY,—ELIZABETH BLEYNDENSHIN,—MARY COON.

Curious Case of Consumption.

There is scarcely a day passes but that there are a number of cases of Consumption reported as cured by the use of Dr. S. P. Townsend's Sarsaparilla. The following was recently received:

DR. S. P. TOWNSEND—Dear Sir: For the last three years I have been afflicted with General Debility and Nervous Consumption of the last stage, and did not expect to regain my health at all. After going through a course of medicine under the care of some of the most distinguished regular physicians and members of the Board of Health in New York and elsewhere, and spending the most of my earnings in attempting to regain my health, and after reading in some paper of your Sarsaparilla, I resolved to try it. After using six bottles, I found it does me great good, and I called to see you at your office. With your advice I kept on, and do most heartily thank you for your advice. I persevered in taking the Sarsaparilla and have been able to attend to my usual labors for the last four months—and I hope, by the blessing of God and your Sarsaparilla, to continue my health. It helped me beyond the expectations of all that knew my case.

WONDERFUL CURE.

Her Blood was like water, could not speak, bled at the Lungs, severe pain in the Chest and about the Heart, rattling in the Throat. Read the advertisement, and doubt if you can that Consumption is incurable:

NEW YORK, Dec. 14, 1847.

DR. S. P. TOWNSEND—Sir: Last New Year's day I received as a present two bottles of your Sarsaparilla; for four years previous to this I was very ill, and had not strength to be about the house. I applied to Physicians and could obtain no relief, and at the time I commenced taking your Sarsaparilla, I had almost despaired of getting any better. The blood in my veins was like water. I bled very much at the lungs, I had severe pains in my chest and heart, and was troubled at times with something rising in my throat, so that it was impossible to speak. I discovered a change for the better in my health on taking one bottle of your Sarsaparilla, and in two weeks was able to be up about half an hour at a time, and persevered in taking your Sarsaparilla. In four weeks I was able to go about the house, and have been ever since remarkably strong, and attribute my recovery of my health entirely to your Sarsaparilla. If this statement will be the means of directing others similarly afflicted to your valuable Sarsaparilla you are welcome to make it known.

Yours respectfully,
EMMA SUMNER, 70 Fulton street.

Dr. S. P. Townsend's Principal Office has been removed from 194 Fulton, to 82 Nassau street, in the building formerly occupied by the South Baptist Church.

BRANT'S INDIAN PULMONARY BALSAM

cures very many of the most strongly marked and developed cases of PULMONARY CONSUMPTION—*and, undoubted cases of already* Ulcerated LUNGS—such *numerous cases as were never before cured by any other medicine!* *So utterly hopeless were some of the afflicted persons, as to have been pronounced by physicians and friends to be actually dying.* Many, who had their burial clothes made, have been cured, and yet live; others, who it was said would not live another day, are now as well and hearty as they ever were.

It possesses still a thousand and fold purifying virtues nearly as powerful and active as the preparation which we call

BRANT'S INDIAN PURIFYING EXTRACT.

This Balsam differs from the Extract, but one it possesses *several medicinal virtues which are peculiarly adapted to, and are constantly successful in the cure of*

COUGHS AND CONSUMPTIONS,

and all diseases of a pulmonary nature—such diseases as usually prove so fatal to the ordinary treatment, when they attack the

Breast, Throat, Lungs, and Heart.

THE BALSAM HEALS AND CURES ULCERS *in the LUNGS*, and *strengthens internally*, *as certainly and easily as the* PURIFYING EXTRACT *cures* and *heals ulcers externally*. This Balsam cures *where all other remedies have failed to do good.*

Thousands of Consumptions

and *Chronic Coughs* annually prove its *unfailing efficacy*. In such instances and its unbounded curative powers, in combining healing properties, in the following complaints and diseases, *viz.: Spitting of Blood, Night Sweats, Pain in the Breast and Side, Night Sweats, Pleurisy, Consumptives, Infantile or Nursing Sore Throat, Pain in the Heart, Children Infantile, Dyspepsia, Infantile or Nursing Complaints in Children and Adults*, and ALL FEMALE WEAKNESSES.

CONSUMPTION.
A DYING WOMAN CURED!

We make this claim to prove the POWER TO SAVE LIFE when the BALSAM is used, even after the person is *given up by physicians and friends to be in the last stages of disease*—a fatal DYSPEPSIA, in this case, so far gone, *that the shroud and burial clothes were bought!* For the particulars of disease, read the *very credible and undoubted* testimony of all the circumstances and facts, we refer to our Pamphlets.

The cure was effected on Mrs. ZIBA DYKEMAN, of *Hillsdale Spa, Saratoga County, N. Y.* We can prove, beyond a doubt, *many others almost equally hopeless, and no scientific cures of Coughs and Consumptions CURED*, which were *pronounced incurable by* SKILLED PHYSICIANS.

A DOCTOR CURED!

DR. J. W. FRENCH, *of Hillsdale, Hillsdale county, Mich.*, writes under the 1st of January, 1849, which he follows of: "I have been in the regular practice of medicine in this place for nine years, but was obliged to quit the practice of my profession in consequence of ill health. I was so reduced with a *Cough, Night Sweats, Consumption*, and other afflicted with a *Cough, Night Sweats, Consumption*, past doubt. I consulted several of my brethren, and had severe pains and distress in my chest, side, and breast. I tried the regular prescriptions of the most skillful of the profession, but I grew worse every day, fearing that I should die in a short time, I was induced against patent medicines, and by them I was induced to try your celebrated BALSAM. I was induced to try it, and I was so much better that I was induced to continue the use of it, and I was so much better that I was induced to continue the use of it, and I was so much better that I was induced to continue the use of
